

## 2011 FREE THE FIVE CUBAN SOLIDARITY CAMPAIGN!!

NEHAWU Supports the 2011 Free the Five Cuban Solidarity Campaign  
September 2011

The National Education Health and Allied Workers Union join thousands of people all over the world in solidarity with the people of Cuba and the release of the 5 Cuban compatriots that are languishing in the US jail.

After 12 years of defending their principles, the Five have been recognized by the world as fighters against terrorist plans that have Cuba as target.

The only crime the Five have committed is to provide information about terrorist plans undertaken in the United States against the Cuban people; and to denounce terrorist plans against Cuba in which the American people were endangered.

Since their detention, they have suffered very strict measures: they have been isolated in the so called "hole"; the US government has done everything to prevent them from seeing their families; the American law has been broken and human rights have been violated in a number of occasions.

As a union we are committed to the solidarity and support for the people of Cuba. We join and support the 2011 Free the Five Campaign, which will include pickets at US Embassies, demonstrations, marches, sending messages and letters of protest to the OBAMA Government and press conferences.

We call upon our whole membership to participate and support the global call for the immediate release of the five comrades.

- Long live the spirit of international Solidarity!!
- Forward with release of the Cuban Five!!!
- An injury to one is an injury to all!

Issued by the NEHAWU House
